Tobiano Golf Resort – Kamloops, B.C. Canada

As a new facility, we were faced with many long-term partnership decisions in capital and day-to-day expenditures throughout the operation. The point of reference in every decision was quality, price and service as the common denominator; plus, we desired to make a lasting impression to our customer, staff and industry leaders with first-rate yet cost effective products.

This process became much easier upon meeting Marvin Fischer, our local SYNLawn distributor who provided all the confidence we needed with the various selection of materials, exceptional service and a pedigree of quality workmanship.

In selecting SYNLawn as a high quality alternative solution to the industry norm, Tobiano has quickly established a new standard for presentation and playability for the visiting golfer. Quickly this has become a sound investment and one I would rank as maybe our best. If I were faced to make the same choice or a recommendation, SYNLawn would be the first choice.

Tobiano has found a great solution for our guests who will appreciate this for years to come – in advance, thank you Marvin Fischer and SYNLawn for making an impact at Tobiano!

Miles Mortensen
Tobiano, Director of Golf
